Fast Learner
Creative

PROGRAMMING LANGUAGE

PHP	SQL
HTML	Java
CSS	Python
JavaScript	

I am a recent graduate with a Bachelor of Science in Information Technology, majoring in Business Analytics. Eager to leverage my strong programming skills and passion for technology to contribute effectively to your company. Proficient in Java, Python, PHP, and experienced in developing and debugging software applications. Highly motivated to learn and grow within a dynamic team environment, with a strong foundation in both technical and analytical skills.

Experience

Academic Projects 2020 - 2024

- **Buddy! Your Travel Advisor:** A Java NetBeans application listing tourist spots, where users can rank and comment on them for others to judge their worth.
- **Branch Store Inventory Management System:** A Java NetBeans application for monitoring and managing a store branch's inventory, providing insights on stock availability and item popularity.
- **Console Based Pokémon:** A Python OOP game mimicking Nintendo's Pokémon, where players choose a starter Pokémon, encounter others for duels, and can save progress through text files.
- **Farmbook:** A social media app for farming enthusiasts built with HTML, CSS, Bootstrap, JavaScript, and PHP, encouraging users to share, ask, and communicate to promote farming and gardening.
- **BuildNAS:** An online building permit application system built with HTML, CSS, Bootstrap, JavaScript, and PHP, digitizing the application process and allowing users to submit necessary documents for review by officials.

Web Development Intern March - May 2024

Famco Incorporated, Brgy. Bucana, Apacible Blvd, Nasugbu

- Developed a HRMS with automatic attendance and payroll system using HTML, CSS, JavaScript, and PHP(CodeIgniter3).
- Collaborated with the design team to implement responsive and user-friendly interfaces.
- Assisted in the integration of APIs to enhance application functionality.
- Conducted debugging and code reviews to ensure code quality and performance.
